

**Toronto, ON (October 2, 2006)**-- ADFLOW Networks Inc. is pleased to announce the release of the **ADFLOW Dynamic Messaging System™ Server Version 5.5**, featuring Microsoft® SQL Server™ 2005.

Microsoft SQL Server 2005 provides ADFLOW Networks with the power to develop custom software that delivers powerful data mining analysis and detailed reporting capabilities for our customers.

2007 promises to be an exciting year for ADFLOW Networks, as we prepare to release several new additions to the ADFLOW DMS™ suite of applications, as well as a range of powerful new enhancements to the existing modules, including the **ADFLOW Dynamic Messaging System™ Media Player** software, which is powered by the Microsoft® Windows XP Embedded™ operating system.

Watch for ADFLOW to continue to lead the market with innovative solutions for the digital signage and networked kiosk marketplaces!
